

Overnight & Late Night PACKAGES

Dusk with the Dinosaurs:

- ◇ **Scavenger Hunt in the Morian Hall of Paleontology**
- ◇ **Fossil Sort Activity:** learn about fossilization and identify some genuine fossil shark teeth and take some home!
- ◇ **Passport to the Universe Planetarium Show:** Tom Hanks takes you on a ride from Earth to the farthest reaches of the observable universe and back to see the vast enormity of it all. It beautifully illustrates our place in the universe without going too far over your head.

Evening of Egyptomania:

- ◇ **Scavenger Hunt in the Hall of Ancient Egypt**
- ◇ **Hieroglyphic Cartouche Activity:** Make a royal cartouche and learn about the ancient Egyptian hieroglyphs that baffled scientists for many years!
- ◇ **Tales of a Time Traveler Planetarium Show:** Doctor Who alumni David Tennant takes us on a trip through time, and shows us how humans have kept track of time throughout history and in ancient cultures. It is visually impressive and shows how time and space are intertwined.

Twilight with Technology and Science:

- ◇ **Scavenger Hunt in Wiess Energy Hall**
- ◇ **Glow-in-the-dark Slime Activity:** Chemistry takes center stage as you experiment with polymers and reactions
- ◇ **Cosmic Collisions Planetarium Show:** Cosmic Collisions presents the spectacular result of gravity pulling together planets, stars, and galaxies. Witness the explosive encounters that ended the Age of the Dinosaurs and gave birth to new stars, and created conditions essential for life on Earth.

Overnight/ Late Night packages are a starting point, you can customize your evening at the museum with any combination of the above options, just reach out to your booking contact if you want to mix it up!

Do you want to make your Late Night or Overnight extra special?

You can trade any one of your three pre-scheduled events (Scavenger Hunt, Planetarium show, or Hands on Activity) for something a bit different!

Before you trade your show or activity you can see the options you have on the page above.
